

I am delighted to announce the Erasmus Course MRI of the Head & Neck 2025. This course, scheduled to take place solely onsite, will be hosted in the vibrant city of Ljubljana.

Our program includes formal lectures and hands-on workshops tailored for active engagement by attendees in analyzing cases and addressing clinical challenges. A distinguished group of subspecialists, recognized for their educational prowess and scientific contributions, will deliver these lectures and workshops. Their participation and ongoing support are invaluable, and I am sincerely grateful for their involvement.

The Erasmus course holds a prominent place among the largest Head & Neck courses globally and attracts radiologists from around the world. While radiologists are the primary audience, professionals from other medical specialties involved in head & neck pathology management are welcome to join. This magnetic resonance imaging-based course will comprehensively cover key areas, focusing on MR anatomy, technique, differential diagnosis, added value reporting, and the latest trends and technical advancements in the MRI field.

I eagerly anticipate hosting you in the charming city of Ljubljana, where we can collectively enhance our knowledge and skills in the realm of head and neck radiology.

„Learn as if you were to live forever“ (Mahatma Ghandi)

#### Module coordinator and local organizer:

Katarina Šurlan Popovič

#### Module and Program co-ordinators:

A. Borges (Lisbon), J. W. Casselman (Bruges)

10.45-11.30 Cranial nerves anatomy  
11.30-12.15 Cranial nerves pathology  
12.15-13.30 Lunch  
13.30-14.15 MRI of the globe and orbit  
14.15-15.15 WS1 Cranial nerves  
WS2 Skull base  
WS3 Globe and orbit  
15.15-15.30 Coffee break  
15.30-16.30 WS1 Cranial nerves  
WS2 Skull base  
WS3 Globe and orbit  
16.30-17.30 WS1 Cranial nerves  
WS2 Skull base  
WS3 Globe and orbit  
18:30 Welcome reception

### Tuesday February 4, 2025

- 9.00-9.30 Oral cavity and oropharynx anatomy  
9.30-10.15 Oral Cavity and oropharynx pathology  
10.15-10.45 Larynx and hypopharynx anatomy  
10.45-11.00 Coffee break  
11.00-11.45 Larynx and hypopharynx pathology  
11.45-12.15 Pseudotumor and IgG4 related disease in the head and neck  
12.15-13.30 Lunch  
13.30-14.15 MRI of the brachial plexus and thoracic inlet  
14.15-15.15 WS7 Oral cavity and oropharynx  
WS8 Larynx and hypopharynx  
WS9 Brachial plexus  
15.15-15.30 Coffee break  
15.30-16.30 WS7 Oral cavity and oropharynx  
WS8 Larynx and hypopharynx  
WS9 Brachial plexus  
16.30-17.30 WS7 Oral cavity and oropharynx  
WS8 Larynx and hypopharynx  
WS9 Brachial plexus  
19:30 Social dinner

### Wednesday, February 5, 2025

- 9.00-9.30 MRI of the temporomandibular joint  
9.30-10.00 MR anatomy of the nasopharynx and deep spaces of the SHN  
10.00-10.45 Nasopharynx and related deep spaces: pathology  
10.45-11.00 Coffee break  
11.00-11.30 Nose and PNS anatomy  
11.30-12.15 Nose and PNS pathology  
12.15-13.30 Lunch  
13.30-14.15 MRI of the salivary glands  
14.15-15.15 WS4 Nasopharynx and related deep spaces  
WS5 Nose and PNS  
WS6 Salivary glands  
15.15-15.30 Coffee break  
15.30-16.30 WS4 Nasopharynx and related deep spaces  
WS5 Nose and PNS  
WS6 Salivary glands  
16.30-17.30 WS4 Nasopharynx and related deep spaces  
WS5 Nose and PNS  
WS6 Salivary glands

### Thursday, February 6, 2025

- 9.00-9.30 Temporal bone malformation  
9.30-10.15 MRI of the inner ear  
10.15-10.30 Coffee break  
10.30-11.15 MRI of the middle ear and external auditory canal  
11.15-12.00 MRI of the petrous apex and facial nerve  
12.00-12.15 MRI of Meniere's disease  
12.15-13.30 Lunch  
13.30-14.15 Post-treatment changes and the added value of PET-CT/ PET-MRI  
14.15-15.15 WS10 Inner ear  
WS11 Petrous apex and facial nerve  
WS12 Middle ear and EAC  
15.15-15.30 Coffee break  
15.30-16.30 WS10 Inner ear  
WS11 Petrous apex and facial nerve  
WS12 Middle ear and EAC  
16.30-17.30 WS10 Inner ear  
WS11 Petrous apex and facial nerve  
WS12 Middle ear and EAC

### Friday, February 7, 2025

- 9.00-9.30 MRI and MRA: vascular malformations in the HN  
9.30-10.15 Pediatric HN  
10.15-10.45 Coffee break  
10.45-11.15 Biomarkers and AI in HN  
11.15-12.15 EXAMINATION  
12.15-13.30 Lunch  
13.30-14.30 WS13 Pediatric HN  
WS14 MRI and MRA: vascular malformations in the H&N  
14.30-15.30 WS13 Pediatric HN  
WS14 MRI and MRA: vascular malformations in the H&N  
15.30-16.00 Examination answers  
16.00-16.30 Certificates and closing remark
